

Hi,

our beloved 1994 Bristol 43.3 is in the Chesapeake. We plan on selling her with a broker soon but wanted to get the word out to possible interested parties.

I can honestly say she is the last built 43.3 and is truly Bristol. no expense spared. We have owned her for about 4years and cruised from Maine to the Bahamas/florida multiple times.

She is flag blue with Toast canvas, new sails, new generator, new interior, freshly varnished, electric winches, in mast furler, stainless ports/ hatches....she is truly beautiful.

Please pass this on to your members if possible. You never know when someone in your group is interested in a Bristol. They can email me directly and we can show Pearl this fall. We will be in the Annapolis area after labor day to list with a broker.

best regards,

Pierre McCormick
