1. Go up Eastern Bay to Wye River East to Granary Creek.
2. Stay in river until you can see straight up the middle of Granary Creek; turn to port and enter
3. There is at least seven to eight feet of water in the center of Granary creek fairly far up and to port around the back of the island. Rafting is good, but please don't block entrance channel.
4. There is a dock for dinghies in the first bight to port after entering the creek. There is also a grassy landing spot farther upstream with a short walk to the lodge.

The Lodge is just inside the entrance on the left. OK anchorage spot in that bight.

DOGS welcome BUT MUST remain outside buildings, be leashed at all times, and be cleaned up afterward by owner.
